## FROM THE EDITOR'S DESK

Dear Reader,

**"Light tomorrow with today." – Elizabeth Barrett Browning**

As May unfolded across our campus, it was a hub of preparation and anticipation, with our dedicated teachers returning to work—mapping lesson plans, setting up classrooms, and ensuring facilities are polished and ready. While children will officially step through our doors in June, May was all about background groundwork. Guided by state directives emphasizing safety, sanitation and completing infrastructure checks by late May our campus buzzed with purposeful activity. Meanwhile, teacher training sessions focused on updated curriculum delivery and digital tool integration, ensuring we open the new academic year with confidence. This month, we've built the foundation—June will bring the true start, energized classrooms, and the laughter of students. May served as our quiet prelude, cultivating an environment where learning and growth are ready to bloom.

Best Wishes,  
Team NEWSHIS!!
