FROM THE EDITORIAL BOARD

Greetings from Team Spectrum!

As we reflect on the journey of our magazine, “Spectrum” we are reminded of its significance in our school community. The Spectrum serves as a platform for expression, creativity, and intellectual exchange, showcasing the diverse talents and perspectives within our school.

We believe that the success of our magazine lies in the active involvement of our readers. Your support, feedback, and engagement have been invaluable in shaping each issue and driving us to strive for excellence.

Teamwork has been the cornerstone of our success. We extend our heartfelt gratitude to the students and staff for their unwavering dedication and contributions of high-quality articles, artwork, and ideas. It is your collaborative effort that has transformed The Spectrum into a source of pride for our school.

As we present this compilation of cumulative events in one book, we hope it serves as a testament to the vibrant spirit and collective achievements of our school community.

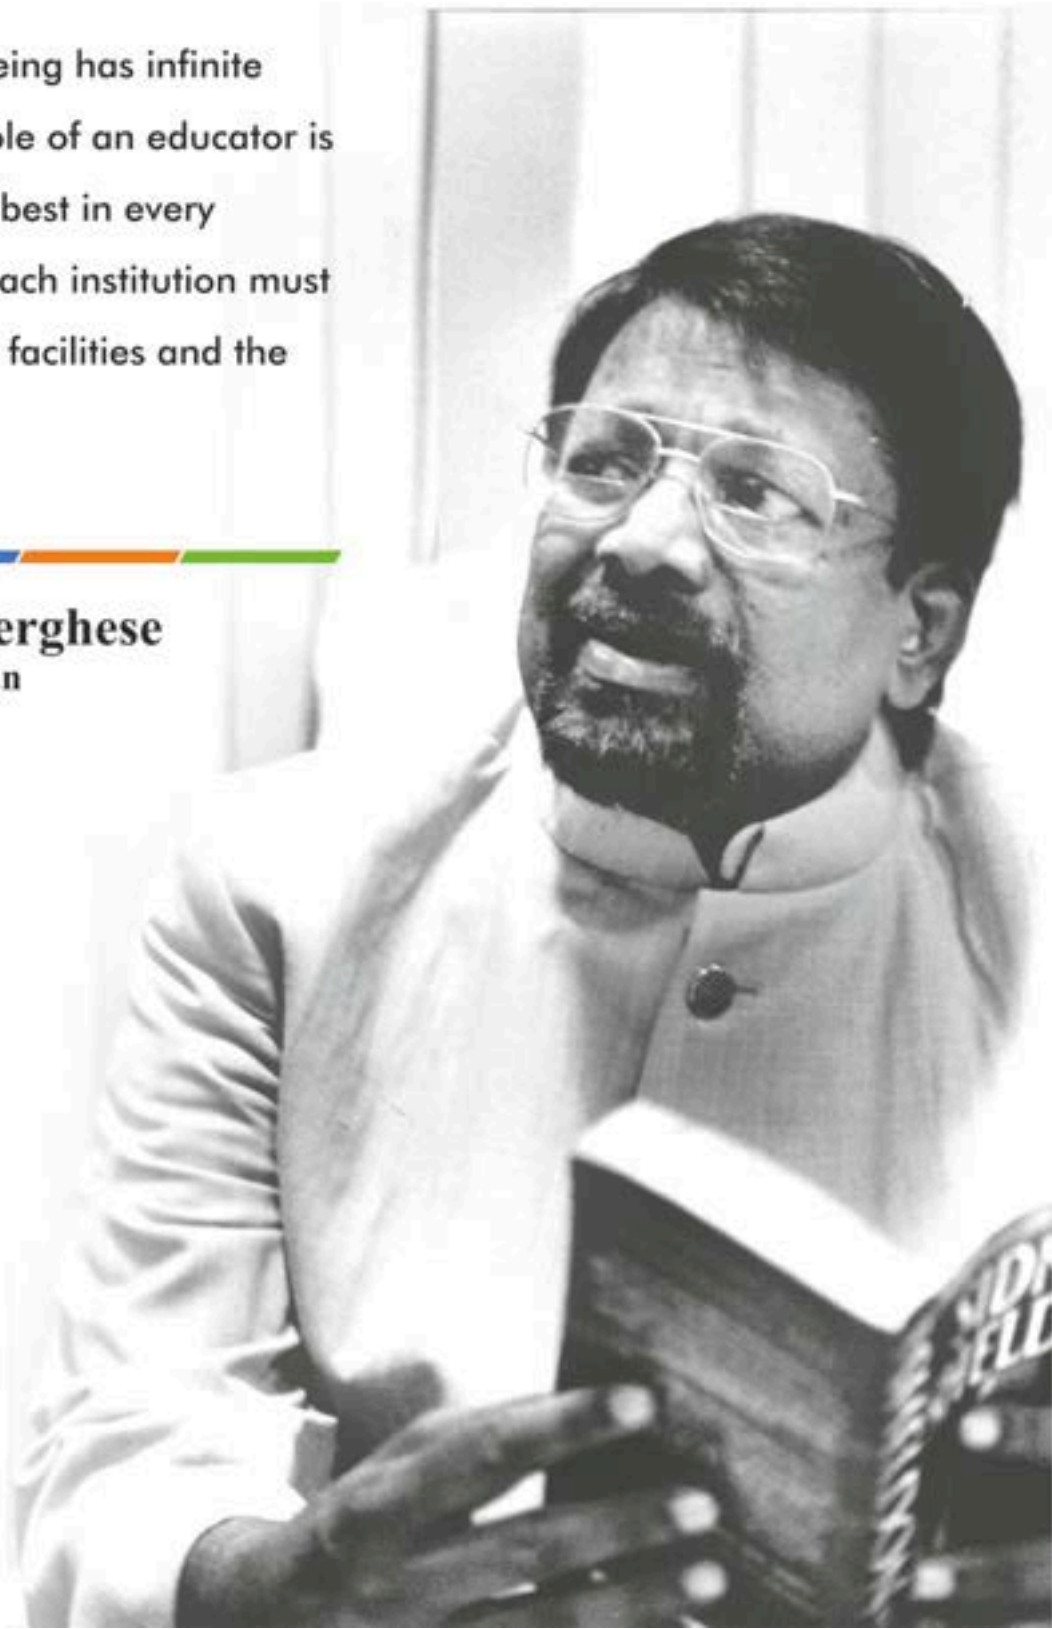

Thank you for being a part of the Journey - Spectrum

Warm regards,
[Editorial Board - Team Spectrum]

To Make Every Man a Success and No Man a Failure

"Every human being has infinite potential. The role of an educator is to bring out the best in every individual and each institution must provide the best facilities and the right ambience"

Dr. K.C.G Verghese
Founder Chairman

MESSAGE FROM CHAIRMAN

As you stand at the crossroads of opportunity and potential, remember that every step you take today shapes the remarkable journey ahead. Our mission as an institution is to equip you not just for the challenges of the present but for the limitless possibilities of tomorrow.

In a world evolving at an unprecedented pace, driven by technological breakthroughs and global connectivity, education must be the foundation of innovation and adaptability. At our school, we are proud to be at the forefront of this transformation.

This year, we have been honored with notable recognitions, including the Times Education Icon Award 2024 for Best Innovative School Teaching, the QS I-Gauge Diamond rating in Teaching and Learning with Silver overall, and acknowledgment from Career 360—a reflection of our dedication to excellence and pioneering spirit in education.

This annual magazine is more than a collection of memories; it is a celebration of the resilience, creativity, and achievements that define our community. From academic milestones to cultural feats, every story here highlights the incredible talent and determination you bring to the table.

As you turn these pages, see beyond the events of the past year. See a glimpse of the limitless potential within you, a testament to what can be achieved with passion and perseverance.

Your journey is only just beginning, and the future holds extraordinary things for you. Believe in your dreams, embrace the unknown, and continue to push boundaries. Together, we will redefine what is possible.

Warm regards,
Dr. Anand Jacob Verghese
Chairman

MESSAGE FROM DEAN ACADEMICS

As I pen down this message for our school's annual magazine, I am filled with immense pride and joy reflecting on the achievements of the past academic year. It has been a transformative journey for our students, teachers, Principal and the school as a whole.

Today, it encompasses a much broader spectrum — cultivating critical thinkers, compassionate individuals, and proactive global citizens who are prepared to tackle the complexities of the 21st century. This Year, our academic initiatives were further

strengthened by the integration of innovative teaching methodologies, hands-on learning experiences, and a strong focus on personalized education. Our talented Principal and Teachers has gone above and beyond to ensure that learning remains engaging and meaningful for every student. Our students have not only excelled within the four walls of the classroom but have also made us proud through their participation in various co-curricular and extracurricular activities. From excelling in national and As you turn these pages, see beyond the events of the past year. See a glimpse of the limitless potential within you, a testament to what can be achieved with passion and perseverance. Your journey is only just beginning, and the future holds extraordinary things for you. Believe in your dreams, embrace the unknown, and continue to push boundaries. Together, we will redefine what is possible.

In conclusion, I extend my heartfelt congratulations to all our students for their hard work and achievements this year. May you continue to be curious, courageous, and compassionate in all your future endeavors.

Wishing everyone the very best for the year ahead. Let us continue to learn, grow, and achieve greater heights together.

Warm regards,

Mr. Johnson Mathew
Dean Academic's

MESSAGE FROM PRINCIPAL

That is the best gift one could ask for
One that can be cherished and give us reasons to live
One that can make feel the sunrise a bit brighter and
One that can make rains feels a little gentler
One that makes angst in us calm and one that can
rejuvenate the dying spirit
Against all the warp and woof of tumultuous
existence, it draws a thread of sustenance
Against all the disappointments, it reminds of the
divine...
.....Nothing but HOPE!!
And in that hope we continue

When I started using pen in my primary school, and I made a mistake, I would try hard to erase it before submitting to my teacher. Sometimes, I used chalk to clean my mistake but it later re-appeared.

My teachers then used to reprimand me for being outrageously dirty. But all I tried to do was to cover my error.

One day, a kind hearted teacher who loved me so much called me aside and she said, "Anytime you make a mistake, just cross it and move on". He said further "Trying to erase your mistakes would only damage your book to nothing.

I told her in protest that I don't want people to see my mistake. My loving teacher laughed and said "Trying to erase your mistake will make more people know about your mess and the stigma is for life".

Have you made some mistakes in life? *Cross it over and move on. * Don't expose yourself as a result of trying to cover your mistakes. Better things are ahead of you.

May the coming years be a better and blessed one

To help us teach our children to brave and not cowardly

To help us make them understand the difference between pride and ego

To help us make them understand the value of respect

To teach them to be human!!

Love & Prayers,

Ms. Bharathi Lakshmi

Principal

The French National Day was celebrated in true meaning and significance. Mr. Ajith Kumar – Manager, Campus France was the chief guest of the event, he had a presentation on ETUDES EN FRENCH /Higher studies in France. He discussed about the perspectives of various opportunities in Educational domains in France.

NOTEWORTHY EVENTS

Medical & Dental Camp

The medical camp at our school premises catered to staff well-being. Vitals, height, weight, vision, and blood tests were conducted meticulously. This initiative fostered a healthier school community, promoting preventive care and overall wellness among the dedicated staff.

Mahakavi Bharathiyar 's Day

Bharathiyar's birthday was observed with a radiated intellectual fervor with diverse competitions—speech, fancy, and Tamil language events. Students passionately showcased their talents, celebrating the essence of Bharathiyar's teachings.

NOTEWORTHY EVENTS

School Management Committee Meeting

School Management Committee (SMC) meeting on January 4th, emphasizing the importance of collaborative decision-making for the school's advancement. The meeting focused on progressive steps to enhance the overall school environment and student welfare. Discussions centered on strategic initiatives for academic enrichment, faculty development, infrastructure upgrades, and innovative teaching methodologies.

Yale MUN

Young Minds of grade XI travelled to Gurugram to add a feather of memory of an international platform to nurture their love for global affairs! Beyond the intense debates, Yale MUN offers a tapestry of cultural exchange. Delegates forge connections, forming friendships that transcend borders.

NOTEWORTHY EVENTS

HIS IGNITES MINDS-2023

Dr. Mini Rao's enlightening speech on "Stress to Success" captivated audiences, providing invaluable insights into navigating challenges and achieving success. The talk emphasized effective stress management strategies, highlighting the importance of cultivating resilience and coping mechanisms. Dr. Mini Rao's holistic approach left a lasting impression, inspiring audiences to embrace stress as a stepping stone towards personal and professional triumph.

NCC Camp - 2023

NCC camp offers a plethora of activities that nurture leadership skills. Cadets engaged in leadership workshops, where they learned effective communication, decision-making, and problem-solving. The camp became a breeding ground for confident and compassionate leaders.

MOMENTOUS EVENTS

Farewell

Sayonara - 2024 was a memorable farewell organized by Grades IX and XI, marking the beginning of new adventures. The event commenced with a solemn prayer song, followed by a heartfelt welcome address. Principal's inspiring speech resonated with all, urging students to embrace challenges ahead.

Founder's Memorial Day

Founder's Memorial Day was a poignant tribute to Dr. K.C.G. Verghese. Students and staff paid homage with heartfelt offerings of flowers, symbolizing their respect and love for his visionary leadership. The community expressed gratitude, acknowledging him as a guiding soul whose legacy continues to inspire generations.

SIGNIFICANT EVENTS

Foreign Country Presentation

Grade XI's foreign country presentation on the Netherlands was a captivating journey into the heart of this European gem. From the Dutch Golden Age to modern innovation hubs, from tulip fields to bustling cities, the presentation showcased the Netherlands' cultural diversity and progressive spirit, leaving the audience enlightened and inspired.

State Presentation

The state country presentation for Maharashtra unfolded as a vibrant celebration of its rich heritage and diversity. Grade VII and VIII students orchestrated a captivating showcase, featuring displays, charts, models, and mouthwatering food recipes. Amidst the array of exhibits, the stage came alive with the graceful Lavani dance performed by enthusiastic students, adding a touch of authenticity to the cultural extravaganza. Maharashtra's essence was beautifully captured, leaving attendees with a deeper appreciation for its colorful tapestry.

NOTEWORTHY EVENTS

Safety on Road

The Road Transport Office (RTO) in Sholinganallur took a proactive step in ensuring the safety of young commuters by organizing a transport awareness program for middle school students. The event focused on instilling road safety measures and the critical importance of adhering to traffic. The RTO officials provided insights into pedestrian safety, the dangers of distracted driving, and the importance of respecting other road users.

Battling heat with Games

Summer Coaching Camp offering a diverse array of activities, from athletic events to horse riding, basketball, and even robotics were organized. Through which the students will explore their interests and hone their skills. This immersive experience not only fosters physical fitness but also promotes creativity and teamwork through art, music, and crafts.

Promotion of Life Skill, Holistic Health and Well-Being through Online Activities

Schools are an important part of our lives. Children spend a considerable amount of time at school throughout their childhood and teenage. It is the school that is responsible for the development of children's careers which ultimately shape their future. A good school will not only ensure academic success but also teach their students values and emotions. It teaches them about different life skills, morals, how to conduct their everyday life, holistic health, and well-being. A school should focus on creating a responsible individual with all these values.

Do we all know what life skill is after all? Life skill education is mainly important in a student's life because it is the basic education that helps shape an individual's personality. It gives strength to handle any kind of situation and gives the courage to face struggle to achieve any target. It also can include the ability of our emotions, finances, school performance, health, etc. If we are practicing life skills, so can improve a child's esteem, social competence, and confidence. It helps us to deal with the competency around the world by giving a positive approach towards reaching our goals in life. Thus it is important to have this education a part of our curriculum to yield better results.

The world has become competitive in terms of academics, sports and so on. This very thought stresses each and every student. They are scared of being left behind and want to be the best, but as a result this over-burdening stress becomes depression, anxiety and what not. A holistic approach to education encompasses a range of factors, from providing nutritious meals to promoting mindfulness practices and offering opportunities for exercise. By prioritizing the students' overall health, schools can create an environment that fosters growth, resilience, and lifelong learning. That is why it is important to focus on their well-being and holistic health.

Continues...

BUDDING WRITER'S

Promotion of Life Skill, Holistic Health and Well-Being through Online Activities

If this cannot be achieved in school hours, we can conduct online activities like seminars on life values and morals, psychology sessions on depression and anxiety in students, fun sessions on exercise and more. We all are aware of the fact that a good physique and mental health would bring great academic results too. A school should not be a place a student fears, it should be a welcoming and supportive place where all students' worries can be treated. Hence, I hereby conclude that promotion of online activities in terms of life skills, holistic health and well-being can serve as a turning point in every student's life.

- Meghana - 9 A

BUDDING WRITER'S

Old enough to know better, young enough to do it anyway.

All my life I have been told, “you are a child, make as many mistakes as you can” and then on the other hand, I have also been told, “You are a young adult now, shouldn’t you know better than this?”

As an infant, I was loud! If I did not get what I wanted, my plan was to scream. I would often ask my parents questions, and get answers. Then I believed my parents knew everything. But as I grew to be ten years old, I was not so confident that my parents had the knowledge of everything in this vast, vast universe. Once, I asked them questions about my science homework. They gave me all the answers and I happily noted them. The next day, when I proudly went up to the front of the class, I was completely embarrassed when I found out my parents had fed me information contrary to that given in the textbooks! The teacher said to me, “It’s okay child, you are young enough to make these mistakes”. I walked back to my place that day, unsure of my parents’ omniscience.

And now, at age 15, I wonder if they know anything at all! The other day, I was extremely frustrated with my teachers for my homework. I asked my parents for some advice and they told me to just focus on completing my homework and moving on. The next day, I was happily completing some notes of mine, when I overheard my father complaining to his boss about receiving far too many assignments! And that reminded me how my mother always complains of how all alone she is doing the household chores every day! I had half a mind to advise both of them to remember what they preached to me. But as a ‘young adult’ I know better than that, right?

Continues...

BUDDING WRITER'S

Old enough to know better, young enough to do it anyway.

It's a beauty being "old enough to know better, young enough to do it anyways". And it's that as humans, when we all make mistakes, we learn alternatives to our approach for a problem or situation. It doesn't matter if we're children, young adults or grown-ups - mistakes are an integral part of our lives. These mistakes are opportunities to learn, to grow, and to become better versions of ourselves. Mistakes help us progress and not become stagnant.

As I stand here today, I embrace the idea that making mistakes is not something to be ashamed of! It is a sign that I am pushing my boundaries, trying new things and daring to explore the unknown reaches of life. It is a sign that I am not shy of taking risks. It is a sign I am prepared to know what my shortcomings are and overcome them. Each mistake I make is a stepping stone on the path of learning and understanding. And even though my parents may not have all the answers, I know they have the wisdom to understand the value of mistakes and the importance of not repeating them.

All my life I have been told, "you are a child, make as many mistakes as you can" and then on the other hand, "You are a young adult now, shouldn't you know better than this?" Yes, I know better - and I am not scared of making mistakes.

A Triumph of Tenacity: A Mother's Inspiring Journey to Success"

Dear Readers,

In the tapestry of life, there are stories that resonate with the power of human spirit, tales that inspire and uplift us. Today, we share with you one such remarkable journey - the story of resilience, determination, and the transformative power of education embodied by an extraordinary woman, a beacon of inspiration to us all.

Meet S. Anadalakshmi, whose life's narrative is woven with threads of hardship, triumph, and an unwavering belief in the ability of education to illuminate even the darkest corners of one's existence. Hailing from a background where obtaining basic needs was a daily struggle, Anadalakshmi faced adversities that would have caused many to surrender to despair. Yet, in the face of challenges, she chose a different path, one paved with an unyielding commitment to knowledge.

In the depths of hardship, where depression loomed like a shadow, Anadalakshmi found solace and strength in the pursuit of education. Her academic journey is nothing short of awe-inspiring, with a stellar 98% in both her 10th and 12th grades, a testament to her unrelenting spirit and commitment to excellence.

But Anadalakshmi's journey doesn't stop there. Against all odds, she earned a coveted spot at Chengalpat Medical College, a prestigious institution in Tamil Nadu. Her accomplishments stand as a testament to the indomitable human spirit and the transformative power of education.

Anadalakshmi often emphasizes that the life she lives today was once a distant dream. She attributes her success to one undeniable force - education. Her journey serves as a poignant reminder that with hard work, determination, and a steadfast belief in oneself, no dream is too far-fetched, no goal too unattainable.

BUDDING WRITER'S

A Triumph of Tenacity: A Mother's Inspiring Journey to Success"

In Anadalakshmi's story, we find inspiration to overcome our own challenges, to embrace the power of education as a beacon of hope, and to believe in the limitless potential that resides within each of us. Her journey reminds us that adversity is not a roadblock but a stepping stone, and education is the key that unlocks doors to a brighter future.

As we celebrate the triumph of tenacity embodied by Anadalakshmi, let her story resonate in our hearts, urging us to push boundaries, break barriers, and strive for excellence. In her tale, we find the courage to pursue our dreams relentlessly, knowing that, like Anadalakshmi, we too can transform adversity into triumph.

May Anadalakshmi 's journey serve as an enduring testament to the resilience of the human spirit and the boundless possibilities that unfold when one embraces the transformative power of education. In admiration and inspiration,

EDUCATOR'S DESK

A Teacher

Every teacher once was a student.

Every winner once was a loser.

Every expert once was a beginner.

But all of them have crossed the bridge called Learning.

Every Teachers Day, I go on a retrospective and introspective mode , looking back at the three decades that I have crossed. It was not by chance but by choice that I became one and I cherish it . It's not about the milestones, but about the minds I have touched, trying my best to give those souls across me the confidence that " they can " .

In the process of becoming a Teacher , we read theories of stalwarts, we were mentored by the experienced , but all found meaning only when we interacted and taught the children. Every day , every year was and is a new learning for us. God in his unique sense of purpose did not make single photocopy , and that made our profession even more interesting. With every new challenge , there was a new learning for us.

The Children learn best by imitation, so be a good example , dear Educators. The physical , emotional and intellectual personality of a teacher has a deep and everlasting impact on the learners. We are celebrated as Teachers only when we realise our existence is dependent on our students (in whose trust we rely) and our colleagues with whom we need to collaborate and coexist. We are Educators....who are on a mission to transform not just transmit information.

" Ultimately, I want to inspire children , I want my students to look at me and saybecause of you I didn't give up"

- Ms. Bharathi Lakshmi

TEACHING IS A
WORK OF HEART

EDUCATOR'S DESK**A LITTLE OF LIFE**

Life implies struggle,
Which makes us giggle.
When the whole world was easy I was all the busy.
When people around me were blissful,
I was all the more stressful.
Am I to blame the fate,
Should I to take all the hate?
Is it the way I perceive?
Or It could be the way I receive.
Toiling up to the life of years.
I just stood with all the tears.
With the phases of time Learnt what's prime.
Rose to the pinnacles of glory That deeply had fury.
The important lesson was not the stories of success but
The scars left behind by the failure.
Indeed, life is a water cycle as it repeats on and on.

La langue Francais : Atout pour la carrière professionnelle

Le français est une grande langue de communication internationale. C'est la langue étrangère la plus largement apprise après l'anglais et la neuvième langue la plus parlée dans le monde. Le français est aussi la deuxième langue étrangère la plus enseignée au monde après l'anglais, et sur tous les continents. Le français est souvent considéré comme la langue de la culture. Tout cours de français s'accompagne d'un voyage culturel dans le monde de la mode, de la gastronomie, des arts, de l'architecture et de la science.

Parler français et anglais, c'est un atout pour trouver un emploi auprès des nombreuses multinationales françaises et francophones dans des secteurs d'activités variés (distribution, automobile, luxe, aéronautique...). La France, cinquième puissance commerciale, attire des entrepreneurs, des chercheurs et les meilleurs étudiants étrangers.

Parler français permet de poursuivre des études en France dans des universités réputées

APPRENEZ LE FRANCAIS ET PROFITEZ BIEN !

விடாமுயற்சி

அடிமேல் அடி அடித்தால் அம்மியும் நகரும், கொந்தளிக்கும் கடலில் பயணிக்கும் ஒரு சிறிய படகு புயல் அலைகளுக்கு சரணடைய மறுப்பதைப்போன்றது. சிரமங்கள், பின்னடைவுகள் மற்றும் துன்பங்கள் இருந்தபோதிலும் விடாமுயற்சியுடன் இருப்பதற்கான அசைக்க முடியாத உறுதியை இது உள்ளடக்கியது. விடாமுயற்சி என்பது தடைகளை எதிர்கொண்டாலும் தொடர்ந்து முயற்சிப்பதாகும்.

ஒரு பைக் ஓட்ட கற்றுக்கொள்வதை கற்பனை செய்து பாருங்கள் - நீங்கள் மீண்டும் மீண்டும் விழுகிறீர்கள், ஆனால் நீங்கள் விடாமுயற்சியுடன் இருந்தால், வெற்றி இறுதியில் பின்தொடர்கிறது. சவால்களுக்கு அடிபணிய மறுக்கும் விடாப்பிடிதான் நம்மை முன்னோக்கி உந்தித் தள்ளுகிறது.

விடாமுயற்சியே சாதனையின் உயிர்நாடி. அது நம்மை முன்னோக்கிச் செலுத்துகிறது, பின்னடைவுகளை படிக்கற்களாக மாற்றுகிறது, வெற்றிக்கான கதவைத் திறக்கிறது. எனவே, இந்த நல்லொழுக்கத்தைத் தழுவி, அசைக்க முடியாத உறுதியுடன் நம் பயணத்தைத் தொடர்வோம்.

Biotechnology: A BOON or a BANE?

Introduction

Being a combination of technology and science of biology, biotechnology has a broad scope to include sciences like health, virology, immunology, agriculture, seed technology, plant physiology, cell biology, etc

Biotechnology is technology that utilizes biological systems, living organisms or parts of this to develop or create different products.

Artificial Intelligence and Machine Learning in BT

Artificial Intelligence (AI) and Machine Learning (ML) are extensively used in drug discovery. Machine Learning helps in discovering small molecules that could give therapeutic benefits dependent on known target structures.

ML is transforming biological research, resulting in new discoveries in healthcare and biotechnology. Machine Learning and Artificial Intelligence have taken the world by storm, changing the way people live and work. Advances in these fields have elicited both praise and criticism.

Future in/of BT

Biotechnology will be a survival tool in the coming years with the increasing number of lethal diseases and pandemics. Also with the world population over 9million, we will need new technologies in the agriculture sectors. All in all, Biotechnology has a significant role in the future.

Continues...

EDUCATOR'S DESK

Biotechnology: A BOON or a BANE?

This field combines the study of science of biology with technology. This helps in making new discoveries and innovative products useful to mankind. So, the scope of the field expands to numerous sciences like virology, immunology, cell biology, plant physiology, health, agriculture, etc

Conclusion

Biotechnology is the next boom of the era. It will contribute a lot to the economic, scientific and technological growth of the world. More research and job opportunities are being implemented to encourage students to develop passion towards biotechnology. There will be a stage in the future where biotechnology controls the development of the world along with Artificial Intelligence.

IMPORTANCE OF FRIENDSHIP/RELATIONSHIP IN OUR LIFE

Friendship, a state of enduring affection, esteem, intimacy, and trust between two people. In all cultures, friendships are important relationships throughout a person's life span.

Mathematician Ramanujan didn't have any close friends and someone asked him the reason.

He replied that although he wanted to have close friends but nobody was up to his expectations.

He Continued how he expected his friend to be and he replied, " like numbers 220 and 284!

The person got confused and asked what is the connection between friendship and these numbers!

Ramanujan asked him to find the divisors of each number!

With much difficulty, the person derived and listed them as,

220 1,2,4,5,10,11,20,22, 44, 55,110,220

284 1,2,4,71,142,284

Ramanujan then asked the person to exclude the numbers 220 and 284 and asked the sum of the remaining divisors.

The person was astonished to find,

220 $1+2+4+5+10+11+20+22+44+55+110=284$

284 $1+2+4+71+142=220$

Ramanujan explained that an ideal friendship should be like these numbers, to complement each other. Even when one is absent, the other should represent the friend !

To all my 220 & 284's in HISK Family

PARENT'S DESK

Being Inquisitive

Why? This is the question my kids ask every time I ask them to do something. I would like to say “because I said so”, but the various parenting books I read stop me from saying that. I take a deep breath, calming myself and explain why that work needs to be done by them. So why do you go to school? Why do you need to play sports? Why do you need exams? Why do you need to eat your rainbow? Why do you need to keep quiet in class? Why do you need to form a line when dispersing? Why do you need to be consciously kind to your fellow classmates? Why you shouldn't make fun of a person based on their appearance, religion or social status? Why? Why? Why? Because you are all young minds which need to be shaped so as to prepare you for society. Not all can become number one, but all can be kind. Not all can become a president but all of you can find jobs that you love. Not all can be a great orator but all of you can lend your voice when you see injustice. Why do adults keep instructing you all the time?

1. They have more experience than you.
2. Discipline is more important than studies.
3. They want to see you succeed.
4. You are tomorrow's society, so to nurture you is to shape tomorrow's society.

Why you should listen to them? A caterpillar doesn't become a butterfly overnight. Metamorphism is a process. It takes time. So my little caterpillars, to become a beautiful butterfly with various colours, keep asking questions, listen to your elders, disciple above all, be patient and let time work its magic in your lives. I leave you with this quote by Tom Bodett.

In school, you're taught a lesson and then given a test.

In life, you're given a test that teaches you a lesson.

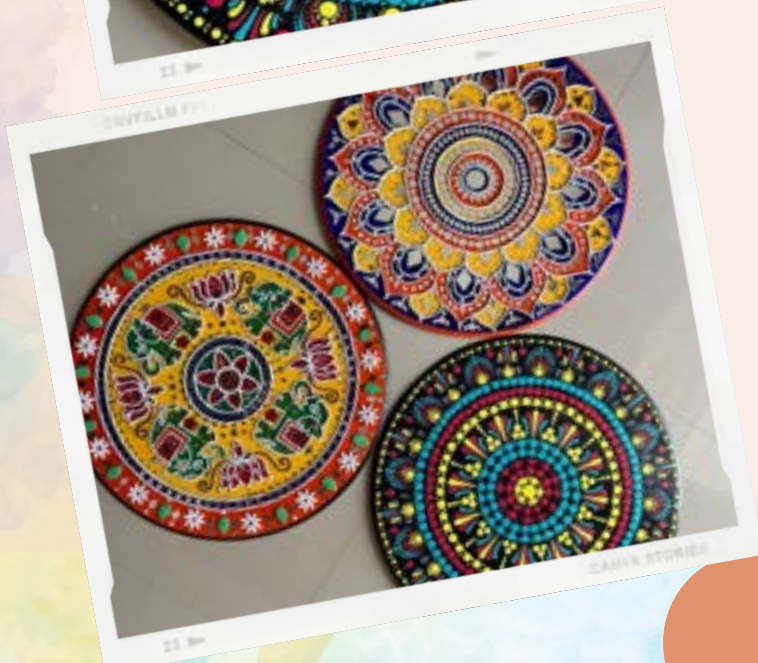

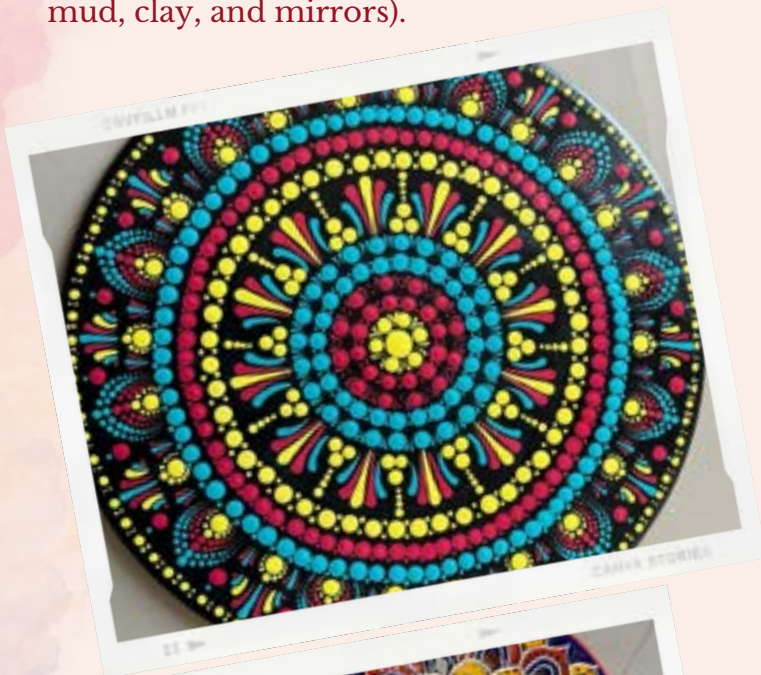

Prepare for your life.

LIPPAN ART

Art is a uniquely human expression of creativity. Artwork is a record of cultural history. Many ancient cultures are entirely lost to time except for the artworks they created, a legacy that helps us understand our human past. Art is meditative and a therapy which helps us understand ourselves. It gives me immense pleasure in showcasing some of my art works. The artwork includes Macrame art (Macrame is a technique or method of crafting a textile that uses several knots to form the basic shape and function of the piece), Mandala art (A mandala, which is Sanskrit for “circle” or “discoid object,” is a geometric design) and Lippan Art (Lippan art is an incredibly unique form of art that involves creating intricate designs with mud, clay, and mirrors).
