CLUB ACTIVITIES

AY 2025-26

“Alone we can do so little, together we can do so much.”

School clubs create small communities. They attract people who share the same interests. Club activities help students develop sense of unity and teamwork, learning how to work with others in reaching the same goals. Clubs are the great way to help develop the student's character and skills that benefit he/she in and out of school. This boosts their level of confidence and their sense of independence.

Students learn from each other whether they are working on one project or separately, everyone is able to learn from each other during club activities. They are not only receiving insights from their teachers or club advisers but also from their classmates and peers. They gain new perspective and also learn the importance of respecting another person's viewpoint.

HISK CLUBS & THEIR OBJECTIVES
